Dear Ms. Summers,

This is to acknowledge receipt of your email to the Public Service Commission of South Carolina. I am forwarding your email to our Clerk's Office for processing. Your email will become a part of Docket No. 2014-187-E and will be posted on our website under this docket.

Please let me know if you should require any additional information.

Sincerely,

Deborah Easterling  
Administrative Assistant

**Subject:** SCEG

I just saw in the paper about the rate increase asked by SCEG. This is becoming obscene when the public is struggling so hard with jobs, health, food cost rising faster than salaries. How you granted them the last one and then letting them put it into place in the fall/winter season shows how little anyone cares about the citizens. There were so many people begging for help on their electric bills last winter, the agencies that do this ran out before the winter was over. Then they turned to social media begging for help. A large segment of the population here is on fixed income or govt help, they have no choice except to cut back on doctors, food, medicines or get the power shut off. Or die from hypothermia. We froze last winter even with heat I don't know how much more we can take, Please please think long and hard about this.

Sincerely,
